MOR scope and practical service this Work

which the Ohinese have of late years been com-

pelled to coin to express the numerous objects

in machinery, photography, telegraphy, and in

science generally, which the rapid advance of

foreign relations has imposed upon them, are

here given in extenso. Lach and every word is

fully illustrated and explained, forming exer-

lises for students of a most instructive nature

The scope of the work is so great, and its:

ntilitarian purposes so complete, that a re-ference to its pages enables a person who

understands English to communicate effectively

with natives who understand nothing but Chi-

nose. In this respect the work will be found

indispensable to all Europeans residing in

plains subjects fully, with which very few in-

deed of them are perfectly acquainted. To parties resident in England and interested in

China it cannot but be invaluable occasionally.
